About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a moto to provide education to all and contribute it self to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Intellectual property (IP) pertains to any original creation of the human intellect such as artistic, literary, technical, or scientific creation. Intellectual property rights (IPR) refers to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. These legal rights confer an exclusive right to the inventor/creator or his assignee to fully utilize his invention/creation for a given period of time. It is very well settled that IP play a vital role in the modern economy. It has also been conclusively established that the intellectual labor associated with the innovation should be given due importance so that public good emanates from it.

Topics Covered:-

- types of Intellectual Properties and their Description
- Role of Undisclosed Information in Intellectual Property
- Rationale of Patent
- Rationale of License
- The Role of Patent Cooperation Treaty
- Management of Intellectual Property in Pharmaceutical Industries
- Nature of Pharmaceutical Industry
- Some Special Aspects of Drug Patent Specification

Outcome of programme:

The students and faculty learned about IPR & Management Need & Practice for Engineers. They gain the knowledge on Intellectual property has increasingly assumed a vital role with the rapid pace of technological, scientific and medical innovation that we are witnessing today. Moreover, changes in the global economic environment have influenced the development of business models where intellectual property is a central element establishing value and potential growth. In India several new legislations for the protection of intellectual property rights (IPRs) have been passed to meet the international obligations under the WTO Agreement on Trade-Related Aspects of Intellectual Property Right.

On 24.8.2019, from our college students and faculties have participated in the IPR programme.

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute it self to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Sustainable implant is an urban typology that acts as a decentralized infrastructure provision hub on the neighborhood or district scale. Sustainable implants provide integrated infrastructure services that maintain cycles of energy, water and material, as well as provide social and economic returns. as an answer to the problem of scale versus innovation in infrastructure; where in infrastructure benefits from increasing returns to scale but suffer from extremely slow rate of change and turnover.[1] To answer this problem, the sustainable implant is an instrument for mid-scale facilitation of alternative system innovation. The sustainable implant is a synthesis of techniques for sustainable processing of urban flows within an ecological processing device. The objective of a sustainable implant is to generate qualitative and quantitative improvements for utility service provision.

Topics Covered:-

- *Development of the sustainable implant concept*
- *Criteria for sustainable implants*
- *Examples of Sustainable Implants*
- *EVA Lanxmeer*
- *Construction and operation*
- *Infrastructure services*
- *Kolding Wastewater Pyramid*

Outcome of programme:

The students and faculty learned about Green entrepreneurship sustainable living human implant. They gain the knowledge on Green entrepreneurship is a way to balance ecological and commercial benefits. College graduates' green entrepreneurship is a new branch of college graduates' entrepreneurship. It has some basic characteristics and conditions that entrepreneurship should have and also has the distinctive feature of green. The connotation of sustainable development is the inexhaustible driving force for green entrepreneurship of college graduates. This study incorporates risk tendency, ecological values, and social responsibility into the evaluation of entrepreneurial intention. People with strong ecological values usually hope to practice their values through practical actions, and they can obtain a greater sense of satisfaction and achievement in the process of ecological protection.

On 21.9.2019, from our college students and faculties have participated in the Entrepreneurship programme.

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Several of the IPRs mentioned above are relevant to the agricultural sector in that they can be used to protect goods or services produced in the agricultural sector.³ these are mainly patents, plant breeders' rights, trademarks, geographical indications and trade secrets. It is possible to include lay-out designs for chips that are designed to perform certain functions related to agriculture, but these are assumed to be incorporated in machines produced in the industrial sector. Similarly, scientific papers or television programmes covering ideas related to agriculture are not seen as directly being produced in this sector

Topics Covered:-

- Introduction
- IPRS Relevant to Agriculture
- International Intellectual Property Law
- India's International obligations on IPRS
- The Public Debate In India on Legislative Changes on IPR
- Conclusions And Policy Prescriptions

A ONE DAY SEMINAR ON

ENTREPRENEURSHIP OPPORTUNITIES & CHALLENGES

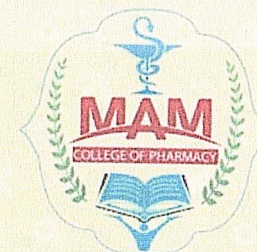

Programme schedule

16.11.2019

Organized by:-

**MEDARAMETLA ANJAMMA MASTAN
RAO COLLEGE OF PHARMACY**

(Approved by AICTE, PCI & Affiliated to ANU)
ISO 9001 : 2008 & UGC 2(F) & 12(B)

-:Venue:-

Seminar Hall

M.A.M COLLEGE OF PHARMACY

Kesanupally, Narasaraopet-522601

(Approved by PCI, New Delhi & Permanently Affiliated to Acharya Nagarjuna University)

(Recognized Under UGC Section 2F & 12B of UGC Act)

Mobile: 9848498714 / 9951420612 | email: prins2mam@gmail.com

Website: www.mamcollegeofpharmacy.ac.in

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute it self to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

This chapter provides an overview of key factors to consider in designing and implementing effective entrepreneurship policies. It discusses the current objectives and challenges of entrepreneurship policy. It presents good practice principles for policy design and draws lessons for successful policy development and implementation. The chapter also highlights the importance of monitoring and evaluation for impactful entrepreneurship policies and programmers.

Topics Covered:-

- Objectives of entrepreneurship policy
- The importance of regional conditions and policies
- Principles for successful entrepreneurship policy design
- Lessons from the international policy case studies
- Monitoring and evaluation
- Capacity building is an essential part of successful delivery
- The importance of monitoring and evaluation
- Fundamentals of monitoring and evaluation

Outcome of programme:

The students and faculty learned about Entrepreneurship opportunities & challenges. They gain the knowledge on Rural entrepreneurship is one the best tool used by any NGO's and GO's for the conversion of developing to developed level. Non-urban grew up in socio-economic is the solutions for recovering poverty of any countries. Hence any individual or citizens of India must buy/sell any Indian products. Therefore, there should be less stress on the integration of rural as well as the development of the economic status of each stakeholder. The most hectic issues are the participation of youth and curriculum in an institution should mould the students/faculty to speak about the importance of running a business rather than an employee of any organization.

On 16.11.2019, from our college students and faculties have participated in the Entrepreneurship programme.

Outcome of programme:

The students and faculty learned about Research Methodology For Social Science Research. They gain the knowledge on the purpose of this course is to introduce doctoral students to the process of conducting academic research. We will learn about how to think and act like a researcher in conceptualizing, designing, executing, and evaluating “scientific” research projects. Part of the class will require you to design and write an independent research proposal (with your professor’s help). In addition, the finals exam will prepare you for the research methods section of your Ph.D. comprehensives exam.

On 21.12.2019, from our college students and faculties have participated in the Research methodology programme.

Outcome of programme:

The students and faculty learned about IPR & Indian Patenting Land Space. They gain the knowledge on It can be expected that technical inputs as well as financial contributions from the private sector will become more and more important in the context of future development of outer space activities. Further advances in a wide range of technologies will create more opportunities for the development of new space applications by the private sector.

On 18.1.2020, from our college students and faculties have participated in the IPR workshop programme.

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

PHARMACEUTICAL REGULATORY AFFAIRS

PHARMACEUTICAL QUALITY ASSURANCE

Objectives of the Programme:-

Today, children and young people are global citizens, powerful agents of change and the next generation of caregivers, scientists, and doctors. Any crisis presents the opportunity to help them learn, cultivate compassion and increase resilience while building a safer and more caring community. Having information and facts about COVID-19 will help diminish students' fears and anxieties around the disease and support their ability to cope with any secondary impacts in their lives. This guidance provides key messages and considerations for engaging school administrators, teachers and staff, parents, caregivers and community members, as well as children themselves in promoting safe and healthy schools.

Topics Covered:-

1. FACTS ABOUT COVID-19
 - COVID-19
 - Non-Pharmaceutical Interventions (NPIs)
2. INTRODUCTION
3. SCHOOL ADMINISTRATORS, TEACHERS AND STAFF
 - Key Messages & Actions • Checklist
4. PARENTS/CAREGIVERS AND COMMUNITY MEMBERS
 - Key Messages & Actions
 - Checklist
5. STUDENTS AND CHILDREN
 - Checklist
 - Age-specific health education

Outcome of programme:

The students and faculty learned about Awareness Program Corona Virus (Covid-19) & Cpr by Tana Foundation. They gain the knowledge on The purpose of this document is to provide clear and actionable guidance for safe operations through the prevention, early detection and control of COVID-19 in schools and other educational facilities. The guidance, while specific to countries that have already confirmed the transmission of COVID-19, is still relevant in all other contexts. Education can encourage students to become advocates for disease prevention and control at home, in school, and in their community by talking to others about how to prevent the spread of viruses. Maintaining safe school operations or reopening schools after a closure requires many considerations but, if done well, can promote public health

On 14.3.2020, from our college students and faculties have participated in the Entrepreneurship programme.
