About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a moto to provide education to all and contribute it self to the millennium development goals. Since its inception, with in a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

Objectives of the Programme:-

Graph theory might sound like an intimidating and abstract topic to you, so why should you even spend your time reading an article about it? However, although it might not sound very applicable, there are actually an abundance of useful and important applications of graph theory! In this article, I will try to explain briefly what some of these applications are. In doing so, I will do my best to convince you that having at least some basic knowledge of this topic can be useful in solving some interesting problems you might come across.

Topics Covered:-

- α -Discrepancy and Strong Perfectness
- Braess' Paradox in Transport Networks
- Hazard Assessment of Infrastructures for Smart Evacuation Based on Unified Networks
- The Probabilistic Method for Domination Parameters
- Decomposition Methods for the Reconstruction Conjectures
- Embedding Graphs on Topological Surfaces
- Development and Mining of a Comprehensive Database of Graph Invariants
- Graph-Theoretic Conjectures and the Computer System GRAPHOGRAPH
- Man-Machine Approach to Investigation into

Outcome of programme:

The students and faculty learned about Entrepreneurship And Family Business. They gain the knowledge on while family businesses will never be immune to scandal or crisis, let us continue to hold up those that survive and why they do. If we look a little closer, we are likely to find that the private nature of family business often obscures an incredible resolve, endless innovation, and a quiet determination all the same qualities that drive any entrepreneur towards success.

On 21.7.2018, from our college students and faculties have participated in the Entrepreneurship Programme.

Objectives of the Programme:-

This Manual is intended to provide detailed information to the public and users of Design Registration System on the practice and procedures followed by Designs Wing of the Indian Patent Office, for processing of Design Applications and other related procedures. The primary objective of this manual is to streamline the procedure in the Designs Wing and to make the system more transparent and efficient. The Manual is based on the provisions of Designs Act, 2000 and the Designs Rules, 2001 as amended in 2008.

Topics Covered:-

- Introduction
- Important definitions
- Filing of Design Application
- Examination and registration of designs
- Patent Office Journal
- Piracy of registered designs and consequences thereof
- Post registration procedures
- Transfer of rights
- General Services
- Use and acquisition of registered design by Government
- General powers of Controller
- Evidences etc.

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

Objectives of the Programme:-

Objectives of intellectual property refer to the purposes of protection granted to creators of innovative intellectual creations. Intellectual property (IP) rights serve the important purpose of ensuring that creators will be recognized for their efforts and protected from infringement. When they are sure that their works are protected, creators are more likely to come up with more new creations. As such, IP also helps to promote creativity and innovation. There are many different forms of IP, each of which is protected by a certain type of IP rights.

About College :-

Medarametla Anjamma Mastanrao (M.A.M) College of Pharmacy is one of the best premier and iconic pharmacy college established in 2007 by M.A.M Memorial service society with a group of eminent academicians and professionals from different fields with a mission to offer quality education with a motto to provide education to all and contribute it self to the millennium development goals. Since its inception, within a short time the college has been upgraded to PG level of education.

Courses Offered:

B.PHARMACY – 4 YEARS

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

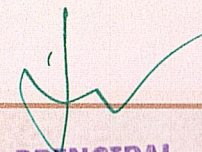

PHARMACOLOGY

Objectives of the Programme:-

- 3D printing can help your business with prototyping or low-volume manufacturing. It also has applications in design, biomedical devices and mechanical parts.
- You should guarantee your supply chain and product quality to protect against unlicensed 3D printing. You should also hire only people with skills and experience relevant to your 3D printing projects.
- Your small business could benefit from a 3D printer, such as the Original Prusa MINI,Ultimate S3 or Any cubic Viper.
- This article is for small business owners who manufacture products and are interested in 3D printing.

Topics Covered:-

- ✓ What is 3D printing?
- ✓ Applications for 3D printers
- ✓ Copyrights and 3D printing
- ✓ The future of the industry
- ✓ Top 3D printer picks for at-home small businesses
- ✓ What the state of 3D printing means for small business

PHARM.D – 6 YEARS

M.PHARMACY

PHARMACEUTICS

PHARMACEUTICAL ANALYSIS

PHARMACOLOGY

Objectives of the Programme:-

Quantitative research templates are objective, elaborate, and many times, even investigational. The results achieved from this research method are logical, statistical, and unbiased. Data collection happened using a structured method and was conducted on larger samples that represent the entire population.

Topics Covered:-

- Quantitative research characteristics
- Quantitative research examples
- What are the advantages of quantitative research?
- Best practices to conduct quantitative research
- Primary Methods
- Data collection methodologies: Using surveys & polls
- Data analysis techniques
- Techniques and Types of Studies
- Secondary Methods
